

RIZKY SAPUTRA LATIEF

Junior Frontend & Fullstack Web Developer

Tangerang Selatan, Indonesia | rizkysaputratatief1093@gmail.com | +62 822 7826 3098
linkedin.com/in/rzkylatif | github.com/rzkylatiif

SUMMARY

Informatics Engineering graduate and web developer specializing in building clean, responsive, and cross-browser user interfaces with HTML5, CSS3, JavaScript, React, and Next.js. Brings a strong eye for design from a UI/UX background and is comfortable collaborating with cross-functional teams to turn requirements into polished interfaces. Also works across the stack — REST API integration and relational database design with Supabase and PostgreSQL — and has built and deployed real production projects.

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React, Next.js, Tailwind CSS, Responsive Design, React Hook Form

Backend & Data: Supabase, REST API, Authentication, CRUD, Real-time Data Sync, PostgreSQL, MySQL, SQL

Tools & Workflow: Git & GitHub (branching, merging, conflict resolution), Chrome DevTools, Vercel, Figma, Postman, Zod

Design: UI/UX design, wireframing, prototyping, design principles

PROJECTS

Nipon Konstruksi — Company Profile & CMS

Next.js, React, TypeScript, Supabase, PostgreSQL

niponsaranakonstruksi.co.id

- Built a responsive, cross-browser company profile website with a secure admin dashboard.
- Implemented the UI with reusable components and integrated the frontend with Supabase for dynamic data fetching, so the site updates automatically from the admin panel.
- Designed the relational database and implemented full CRUD for content management.
- Deployed to production, now running on a custom domain.

Real-Time Point of Sale (POS) System

Next.js, React, Supabase, PostgreSQL

portofolio-sage.vercel.app

- Built a full-stack POS application with real-time inventory and transaction updates.
- Structured the interface with reusable components; designed the PostgreSQL schema and implemented CRUD for products and sales.
- Deployed to Vercel.

EXPERIENCE

UI/UX Designer & Product Management Intern — Comentor

Sep 2023 – Jan 2024 · Padang

- Designed user flows, wireframes, and prototypes for product features, applying core design principles.
- Helped define user requirements and feature specifications, and contributed to Product Requirement Documents (PRD).
- Collaborated with cross-functional teams during product planning.

Computer Lab Assistant (Staff Support) — Universitas Putra Indonesia YPTK Padang

Mar 2022 – Apr 2024 · Padang

- Configured network devices, installed software, and maintained lab IT infrastructure.
- Performed troubleshooting for hardware and software issues.

ORGANIZATIONAL EXPERIENCE

Forum Studi Informatika — Human Resources & Creative Media

Jun 2022 – Mar 2024 · Padang

- Served as Event Lead (Chairperson) for the “Tambah Pintar (TAMPAR)” educational program, coordinating planning and execution.
- Contributed to web design learning materials and designed event posters.

EDUCATION

Bachelor of Informatics Engineering — Universitas Putra Indonesia YPTK Padang

2020 – 2025 · GPA 3.06 / 4.00

Relevant coursework: Web Development, Software Engineering, Database Systems, Decision Support Systems.

LANGUAGES

Indonesian (native), English (intermediate)
